

Cyber Safe Communities Project 2007 - Parent Seminars

The **Eden Community Access Centre** is offering the local community free seminars between now and November under a program highlighting Internet crime prevention. The program is jointly funded under the National Community Crime Prevention Programme - an Australian Government Initiative - with support from the Auda Foundation and the Community Technology Centres Association.

Two seminars are being offered to parents. Each seminar is approximately 90 minutes long and is to be held at the **Eden Access Centre**, 116 Imlay Street Eden. Separate seminars are being offered to youth and seniors.

Parents Workshop 1: Protection Software Mon 17 Sept - 10:00am

Participants will learn:

- about the most prevalent threats and dangers to their children's online welfare
- what they can do to minimise those risks
- where to go for additional information and resources

Parents Workshop 2: Cyberstalking - Mon 24 Sept 10:00am

Participants will learn:

- about the most common methods used by online stalkers.
- about the best ways of avoiding becoming a victim of cyber stalking.
- how to use the internet confidently by being aware of the danger signs of stalking behaviour.
- where to go for additional information and resources

Lis is also a parent and lives on the Sapphire Coast of NSW.

Cyber Safe Communities Project 2007 - Seniors Seminar

The **Eden Community Access Centre** is offering the local community free seminars between now and November under a program highlighting Internet crime prevention. The program is jointly funded under the National Community Crime Prevention Programme - an Australian Government Initiative - with support from the Auda Foundation and the Community Technology Centres Association.

A successful Senior's workshop was held during Seniors Week 2007 on Spyware, Viruses and Phishing.

A new seminar is being offered to seniors who have Internet access and who have responsibility for caring for grandchildren at various times.

The seminar is approximately 90 minutes long and is to be held at the **Eden Access Centre**, 116 Imlay Street Eden. Separate seminars are being offered to youth and parents.

Seniors Workshop: Grandma what big teeth you have - Mon 17 Sept 1:30pm

Participants will learn:

- about the four most prevalent risks to children who might be using your online computer
- principles of protective behaviour to minimise risks
- what precautions you can take to keep your grandchildren safe
- where to go for additional computer security information
